The Government of the Russian Federation resolves to:

1. Approve the attached Statute of Federal Environmental, Industrial and Nuclear Supervision Service.
2. Invalid. – Ordinance of the Government of the Russian Federation No. 404 of 29.05.2008.
3. Federal Environmental, Industrial and Nuclear Supervision Service and the Ministry of Natural resources of the Russian Federation submit until October 1, 2004, to the Government of the Russian Federation draft regulatory legal acts in the field of implementation of state environmental control and conduct of state environmental review providing exclusion of duplication of the functions and assurance of coordination between Federal Environmental, Industrial and Nuclear Supervision Service and Federal Service for Supervision of Natural Resource Management.
4. The Ministry of Industry and Power of the Russian Federation and Federal Environmental, Industrial and Nuclear Supervision Service submit until November 1, 2004, to the Government of the Russian Federation draft regulatory legal acts providing entrusting the Service with the authorities of implementation of supervision of the activities of the authorized state and municipal bodies controlling the observance of the requirements of the town planning and housing legislation, obligatory rules and regulations regulating civil engineering activities in the field of assurance of strength, stability and operational robustness of buildings and structures.

5. Invalid. – Ordinance of the Government of the Russian Federation No. 404 of 29.05.2008.

6. Permit Federal Environmental, Industrial and Nuclear Supervision Service to have up to 7 chairman deputies, including a secretary of state-deputy chairman, as well as up to 15 departments for basic areas of activity in the structure of the headquarters.

(Para. 6 in edition of Ordinance of the Government of the Russian Federation No. 2293 of 28.12.2020)

6.1 - 6.2. Invalid since January 28, 2011. – Ordinance of the Government of the Russian Federation No. 39 of 28.01.2011.

7. Invalid. – Ordinance of the Government of the Russian Federation No. 404 of 29.05.2008.

8. Agree with the proposal of Federal Environmental, Industrial and Nuclear Supervision Service regarding location of the Service headquarters at Moscow, ul. Taganskaya 34, bld. 1 and ul. Lukianova 4-8.

(Para. 8 in the edition of Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

9. Invalid. – Ordinance of the Government of the Russian Federation No. 404 of 29.05.2008.

10. Admit invalid:

– Ordinance of the Government of the Russian Federation No. 779 of July 17, 1998 “On the Federal Executive Body Specially Authorized in the Field of Industrial Safety” (Code of Laws of the Russian Federation, 1998, No. 30, Art. 3775);

– Ordinance of the Government of the Russian Federation No. 938 of August 12, 1998 “On State Power Supervision in the Russian Federation” (Code of Laws of the Russian Federation, 1998, No. 33, Art. 4037);

– Ordinance of the Government of the Russian Federation No. 841 of December 3, 2001 “On the Approval of Provision on Federal Mining and Industrial Supervision of Russia” (Code of Laws of the Russian Federation, 2001, No. 50, Art. 4742);

– Ordinance of the Government of the Russian Federation No. 265 of April 22, 1998 “On the Approval of Provision on Federal Nuclear and Radiation Safety Supervision of Russia” (Code of Laws of the Russian Federation, 2002, No. 17, Art. 1684);

– Para. 2 of Ordinance of the Government of the Russian Federation No. 554 of September 5, 2003 “On the Financing of Actions on Supervision and Control Taken by State Power Supervision Institutions” (Code of Laws of the Russian Federation, 2003, No. 37, Art. 3588);

– Ordinance of the Government of the Russian Federation No. 180 of April 7, 2004 “Issues of Federal Industrial Supervision Service” (Code of Laws of the Russian Federation, 2004, No. 15, Art. 1473);

– Ordinance of the Government of the Russian Federation No. 192 of April 7, 2004 “Issues of Federal Nuclear Supervision Service” (Code of Laws of the Russian Federation, 2004, No. 15, Art. 1483).

I. General

1. Federal Environmental, Industrial and Nuclear Supervision Service (Rostekhnadzor) is a federal executive authority exercising functions of development and implementation of the state policy and regulatory and legal control in the established sphere of activities, as well as in the sphere of industrial and nuclear supervision, functions of control and supervision in the sphere of atomic energy uses (except activities on development, manufacture, testing, operation and recuperation of nuclear weapons and military nuclear power installations), safety of electrical and thermal installations and networks (except household installations and networks), safety of hydraulic engineering structures (except navigable and port hydraulic engineering structures), safety of production, storage and application of explosive material of industrial purpose, as well as special functions in the field of state security in the specified sphere.

Federal Environmental, Industrial and Nuclear Supervision Service is:

- an authorized body of state safety regulation in atomic energy uses (a federal state supervision body in atomic energy uses);
(edition of Ordinance of the Government of the Russian Federation No. 1037 of 11.10.2012)
- an authorized body in the field of industrial safety;
(edition of Ordinance of the Government of the Russian Federation No. 2208 of 06.12.2021)

- a state mining supervision body;
- a federal state energy supervision body;
(edition of Ordinance of the Government of the Russian Federation No. 996 of 05.12.2011)
- a federal state civil engineering supervision body;
(edition of Ordinance of the Government of the Russian Federation No. 996 of 05.12.2011)
- a regulatory body under the Convention on Nuclear Safety and the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management, as well as a competent body of the Russian Federation under the Amendment to the Convention on the Physical Protection of Nuclear Material.

In terms of the functions in the established sphere of activities, Federal Environmental, Industrial and Nuclear Supervision Service exercises powers of the authorities performing in the international treaties of the Russian Federation as the ones implementing necessary measures aimed at fulfilling the obligations of the Russian Federation ensuing from these treaties.

(Para. 1 in edition of Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

2. The Government of the Russian Federation exercises the management of the activities of the Federal Environmental, Industrial and Nuclear Supervision Service.

(Para. 2 in edition of Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

3. In its activities, Federal Environmental, Industrial and Nuclear Supervision Service is guided by the Constitution of the Russian Federation, federal constitutional laws, federal laws, acts of the President of the Russian Federation and the Government of the Russian Federation, international treaties of the Russian Federation, as well as this Statute.

(editions of Ordinances of the Government of the Russian Federation No. 404 of 29.05.2008, No. 717 of 13.09.2010)

4. Federal Environmental, Industrial and Nuclear Supervision Service exercises its activities directly or through its territorial offices in interaction with the other federal public authorities, public authorities of the constituent territories of the Russian Federation, local self-government authorities, public associations, and other organizations.

(Para. 4 in edition of Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

II. Authorities

5. Federal Environmental, Industrial and Nuclear Supervision Service exercises authorities in the established sphere of activities as follows:

5.1 – 5.2.15. invalid. – *Ordinance of the Government of the Russian Federation No. 404 of 29.05.2008;*

5.2.1. submits to the Government of the Russian Federation draft federal laws, regulatory legal acts of the President of the Russian Federation and the Government of the Russian Federation, and other documents requiring decision of the Government of the Russian Federation on the issues related to the sphere of the Service's activities as established in para. 1 of this Statute;

(Para. 5.2.1 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2. on the basis of and pursuant to the Constitution of the Russian Federation, federal constitutional laws, federal laws, acts of the President of the Russian Federation and the Government of the Russian Federation, independently accepts acts and regulatory legal acts in the established sphere of the activity as follows:

(Para. 5.2.2 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.1. federal rules and regulations in the field of the use of atomic energy in accordance with the legislation of the Russian Federation;

(Para. 5.2.2.1 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.2. procedure of issuing permits to implement activities in the field of the use of atomic energy to employees of the nuclear facilities in accordance with the list of positions approved by the Government of the Russian Federation;

(Para. 5.2.2.2 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.3. requirements to the package and content of documents demonstrating safety of the nuclear facilities, radiation sources, nuclear material and radioactive substance storage facilities, radioactive waste storage facilities and/or safety of activities implemented in the field of the use of atomic energy needed to license an activity in this field, as well as the procedure of reviewing these documents;

(Para. 5.2.2.3 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.3(1). procedure of submittal by the operating organization to the authorized state body regulating safety in atomic energy uses of documents containing safety assessment results of a nuclear installation nuclear material and radioactive substance storage facility, or radioactive waste storage facility and demonstrating safety of their operation, as well as requirements to the package and content of these documents;

(Para. 5.2.2.3(1) introduced by Ordinance of the Government of the Russian Federation No. 1037 of 11.10.2012)

5.2.2.3(2). procedure of safety review (safety demonstration review) of atomic energy facilities and/or activities in the field of atomic energy uses;

(Para. 5.2.2.3(2) introduced by Ordinance of the Government of the Russian Federation No. 1037 of 11.10.2012)

5.2.2.3(3). procedure for conducting a review of programs for electronic computers used to build calculation models of processes that affect the safety of nuclear facilities and/or types of activity in the field of the use of nuclear energy;

(Para. 5.2.2.3(3) introduced by Ordinance of the Government of the Russian Federation No. 793 of 06.07.2018)

5.2.2.4. procedure of organization and implementation of supervision of the state nuclear material accounting and control system;

(Para. 5.2.2.4 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.5. requirements to registration of facilities in the state register of hazardous industrial facilities and to maintaining this register;

(Para. 5.2.2.5 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.6. procedure of execution of the industrial safety declaration of hazardous industrial facilities and the list of data to be included in it;

(Para. 5.2.2.6 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.7. procedure of technical investigation of causes of accidents, incidents and cases of loss of industrial explosive material;

(Para. 5.2.2.7 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.8. invalid since January 1, 2014 – *Ordinance of the Government of the Russian Federation No. 1283 of 26.12.2013*;

5.2.2.9. invalid - *Ordinance of the Government of the Russian Federation No. 245 of 20.03.2013*;

5.2.2.10. form of safety declaration of hydraulic engineering structures;

(Para. 5.2.2.10 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.11. procedure of formation and work regulations of the review boards for the state review of the safety declaration of hydraulic engineering structures;

(Para. 5.2.2.11 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.12 – 5.2.2.13. invalid – *Ordinance of the Government of the Russian Federation No. 2208 of 06.12.2021*;

5.2.2.14. codes of rules in accordance with the legislations of the Russian Federation on technical regulation;

(Para. 5.2.2.14 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.15. methods of development and establishment of admissible limit release rates of radioactive substance into atmospheric air and admissible limit release rates of radioactive substance into water bodies;

(Para. 5.2.2.15 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.16. procedure of issue and form of authorization for radioactive substance release and discharge;

(Para. 5.2.2.16 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.2.2.16(1). federal rules and regulations in the field of industrial safety;

(Para. 5.2.2.16(1) introduced by Ordinance of the Government of the Russian Federation No. 996 of 05.12.2011)

5.2.2.16(2). procedure of agreement of security area boundaries for electric grid facilities;

(Para. 5.2.2.16(2) introduced by Ordinance of the Government of the Russian Federation No. 996 of 05.12.2011)

5.2.2.16(3). peculiarities of compliance assessment of products to which requirements are established connected with safety assurance in the field of atomic energy uses, as well as processes of their design (including survey), production, construction, installation, adjustment, commissioning, storage, transportation, sale, recovery and disposal;

(Para. 5.2.2.16(3) introduced by Ordinance of the Government of the Russian Federation No. 1037 of 11.10.2012)

5.2.2.16(4). requirements to the content of the operation rules of a hydraulic engineering structure;

Para. 5.2.2.16(4) introduced by Ordinance of the Government of the Russian Federation No. 856 of 26.08.2014)

5.2.2.16(5). acts defining the areas of certification in the field of industrial safety, on the safety of hydraulic structures, safety in the field of electric power industry;

Para. 5.2.2.16(5) introduced by Ordinance of the Government of the Russian Federation No. 1365 of 25.10.2019)

5.2.2.16(6). invalid – *Ordinance of the Government of the Russian Federation No. 2208 of 06.12.2021;*

5.2.2.16(7). procedure for maintaining the state register of self-regulated organizations in the field of energy audit and the list of information included in it;

Para. 5.2.2.16(7) introduced by Ordinance of the Government of the Russian Federation No. 283 of 27.02.2021)

5.2.2.17. regulatory legal acts on other issues in the established sphere of the activities other than the issues which are regulated in accordance with the Constitution of the Russian Federation and federal constitutional laws, federal laws, acts of the President of the Russian Federation and the Government of the Russian Federation will be exclusively regulated by the federal constitutional laws, federal laws, acts of the President of the Russian Federation and the Government of the Russian Federation;

(Para. 5.2.2.17 introduced by Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010)

5.3. on the basis of the federal laws, acts of the President of the Russian Federation and the Government of the Russian Federation, implements the following authorities in the established sphere of the activities:

(editions of Ordinances of the Government of the Russian Federation No. 404 of 20.05.2008, No. 717 of 13.09.2010)

5.3.1. implements control (supervision) of:

(Para. 5.3.1 in edition of Ordinance of the Government of the Russian Federation No. 2208 of 06.12.2021)

5.3.1.1. compliance with the rules and regulations in the field of atomic energy uses, conditions of the licenses (permits) authorizing to carry out activities in the field of atomic energy uses;

5.3.1.2. nuclear, radiation, technical and fire safety (of the nuclear facilities);

(edition of Ordinance of the Government of the Russian Federation No. 722 of 17.06.2017)

5.3.1.3. physical protection of the nuclear facilities, radiation sources, storage facilities for nuclear material and radioactive substance, systems of unified state accounting and control of nuclear material, radioactive substance and radioactive waste;

5.3.1.4. fulfilment of the international commitments of the Russian Federation in the field of safety in atomic energy uses;

5.3.1.5. compliance with the industrial safety requirements during design, construction, operation, closedown and liquidation of hazardous industrial facilities; manufacture, installation, alignment, maintenance and repairs of technical devices applied in hazardous industrial facilities and transport of hazardous substance in hazardous production facilities;

5.3.1.6. compliance, within its competence, with the safety requirements in electrical power engineering;

(Para. 5.3.1.6 in edition of Ordinance of the Government of the Russian Federation No. 291 of 14.03.2017)

5.3.1.7. safe performance of the activities associated with using mineral resources;

(Para. 5.3.1.7 in edition of Ordinance of the Government of the Russian Federation No. 404 of 29.05.2008)

5.3.1.8. compliance with the fire safety requirements in underground facilities and during blasting operations;

(edition of Ordinance of the Government of the Russian Federation No. 722 of 17.06.2017)

5.3.1.9. compliance of legal persons, their managers and other officials, individual entrepreneurs, and their authorised representatives who exercise operation, overhaul, closedown and liquidation of hydraulic engineering structures (except for navigable and port hydraulic engineering structures), with mandatory requirements;

(Para. 5.3.1.9 in edition of Ordinance of the Government of the Russian Federation No. 856 of 26.08.2014)

5.3.1.10 – 5.3.1.11. invalid. – *Ordinance of the Government of the Russian Federation of 29.05.2008 No. 404;*

5.3.1.12. compliance, within its competence, with the requirements of the legislation of the Russian Federation in the field of radioactive waste management;

(Para. 5.3.1.12 in edition of Ordinance of the Government of the Russian Federation No. 404 of 29.05.2008)

5.3.1.13. timely return of irradiated fuel assemblies of nuclear reactors and their processing products to the supplier state with which the Russian Federation concluded an international agreement providing import of irradiated fuel assemblies of nuclear reactors to the Russian Federation for the purpose of temporary storage and processing on terms of return of processing products (within its competence);

5.3.1.14. invalid. – *Ordinance of the Government of the Russian Federation No. 817 of 06.10.2011;*

5.3.1.15. invalid. – *Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010;*

5.3.1.16. invalid. – *Ordinance of the Government of the Russian Federation No. 245 of 20.03.2013;*

5.3.1.17. compliance, within its competence, with the requirements for energy effectiveness of non-residential buildings and structures, and the requirements for equipping them with instruments accounting used energy resources by the owners of non-residential buildings and structures in the process of their operation;

(Para. 5.3.1.17 introduced by Ordinance of the Government of the Russian Federation No. 67 of 20.02.2010; edition of Ordinance of the Government of the Russian Federation No. 2208 of 16.12.2021)

5.3.1.18. compliance with the requirement to acceptance of the programmes in the field of energy saving and increase in energy efficiency by the legal persons, whose authorized capital has a share (contribution) of the Russian Federation, a constituent territory of the Russian Federation, or a municipal formation of more than 50 percent, and/or in relation to which the Russian Federation, a constituent territory of the Russian Federation, or a municipal formation have a right to directly or indirectly dispose of more than 50 percent of the votes of the voting shares making up the authorized capitals of such legal persons, by the state and municipal unitary enterprises, state and municipal institutions, state companies, state corporations, as well as legal persons whose assets or more than 50 percent of the stocks or shares in the authorized capital belong to the state corporations.

(Para. 5.3.1.18 introduced by Ordinance of the Government of the Russian Federation No. 67 of 20.02.2010; edition of Ordinance of the Government of the Russian Federation No. 2208 of 16.12.2021)

5.3.1.19. for the submission of a declaration on the consumption of energy resources, compliance with the requirements for the form of the said declaration and the procedure for its submission (within the framework of the federal state energy supervision);

(editions of Ordinances of the Government of the Russian Federation No. 966 of 30.06.2020, No. 2208 of 16.12.2021)

5.3.1.20. for compliance with the requirements of technical regulations, if, in accordance with federal laws, the requirements of technical regulations relate to the subject of a type of federal state control (supervision);

(Para. 5.3.1.20 in edition of Ordinance of the Government of the Russian Federation No. 2208 of 06.12.2021)

5.3.1.21. for compliance within their competence by heat supply organizations and heat network organizations with safety requirements in the field of heat supply;

(Para. 5.3.1.21 in edition of Ordinance of the Government of the Russian Federation No. 1229 of 23.11.2016)

5.3.2. implements in accordance with the legislation of the Russian Federation licensing of the activities in the field of atomic energy uses, as well as licensing of the other activities pertaining to the Service's competence;

(Para. 5.3.2 in edition of Ordinance of the Government of the Russian Federation No. 767 of 14.12.2006)

5.3.2.1 – 5.3.2.25. invalid. – *Ordinance of the Government of the Russian Federation dated 14.12.2006 No. 767;*

5.3.3. issues permits authorizing:

5.3.3.1. the employees of the nuclear facilities carry out work in the field of atomic energy uses;

5.3.3.2. invalid since January 1, 2014. – *Ordinance of the Government of the Russian Federation No. 1283 of 26.12.2013;*

5.3.3.3. invalid. – *Ordinance of the Government of the Russian Federation No. 404 of 29.05.2008*;

5.3.3.4. to operate the supervised hydraulic engineering structures;

5.3.3.5. releases and discharges of radioactive substance into the environment;

(*Para. 5.3.3.5 in edition of Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010*)

5.3.3.6 – 5.3.3.7. invalid. – *Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010*;

5.3.3.8. to apply industrial explosive materials and operations involving the mentioned materials;

5.3.3.9. invalid. – *Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010*;

5.3.3.10. to operate power receiving installations of electric energy consumers, electric energy production facilities, electric grid facilities, heat supply facilities and heat-consuming installations;

(*Para. 5.3.3.10 in edition of Ordinance of the Government of the Russian Federation No. 2208 of 06.12.2021*)

5.3.4. establishes rates for maximum admissible release of radioactive substance into atmospheric air and rates of admissible discharges of radioactive substance into water bodies;

(*Para. 5.3.4 in edition of Ordinance of the Government of the Russian Federation No. 717 of 13.09.2010*)

5.3.5. registers hazardous industrial facilities and maintains the state register of such facilities;

5.3.5(1). maintains the state register of self-regulated organizations in the field of energy audit;
